

ARURA
made in germany

**How much space does a
basic HPLC system need?**

What do you want to purify today?

**How do you feel about longevity
and environmental impact?**

AZURA HPLC purification solutions

- Wide flow rate range (up to 1000 ml/min) and pressure capability (up to 400 bar)
- Gradients
- Choice of detectors with various flow cells, including fiber optics versions
- Integrated flexible injection and fraction collection
- Choice of two LC software platforms

AZURA elements for most compact HPLC

Detector UVD 2.1S

- 190-500 nm
- Preparative and analytical flow cells
- Affordable

AZURA – Combinable elements for individual HPLC solutions

- Versatile
- Reliable and safe
- Energy efficient
- Practical and colorful

Vertex Plus AX: Preparative column hardware with axial compression

- Adjustable stationary phase compression
- Optimum separation efficiency
- Long-lasting performance
- Eco-friendly production

HPLC · SMB · Osmometry
